Subject Index Volume 56 (1991)

active transport, 327
affinity membrane, 207, 247, 289
alkali cation transport, 195

batteries, 143
biological membranes, 327
biotechnology, 289

cellulose acetate membrane, 1, 49
cellulose membranes, regenerated 207
ceramic membranes, 29
chromatography, 247
composite membrane, 77, 143, 303

diffusion, 167, 217, 229

electrophoresis, 247
elution, electrophoretic, 247
erythrocyte model, 341
extraction, 239

facilitated transport, 153, 167, 195, 229, 239, 341
facilitated transport, coupled, 127
fixed-site carrier membranes, 229
fluorination, 77
fouling, 13

gas and vapor permeation, 217, 279
gas separation, 77, 217, 279, 303, 315

hemoglobin containing membrane, 341

immunoadsorption, 247
inorganic membranes, 303
ion exchange membranes, 99, 143
ion transport, 229

liquid membrane, 127, 153, 167, 195, 239
liquid permeability and separation, 207, 239

magnesium ionophore, 153
membrane carriers, 167
membrane distillation, 181
membrane potentials, 327
membrane preparation and structure, 143, 207, 217, 289, 303, 315
membrane vesicles, 327
metal membranes, 303
microfiltration, 289
microporous and porous membranes, 13, 207, 289

N-methylpyrrolidone, 239
nafion membranes, 99

organic separations, 127, 167

palladium and its alloys, 315
polyethylene membrane, 289
polyorganosiloxane membranes, 217
polysulfone membranes, 13, 49, 77
poly(tetrafluoroethylene) membrane, 181
poly(vinylidene fluoride) membrane, 49, 181
pore size distribution, 13
porous membranes, 181

solubility and partitioning, 217
surfactant, 1, 49

theory, 29, 229, 341
thermodynamics, 99, 327

ultrafiltration, 1, 13, 29, 49

water sorption and diffusion, 207
water treatment, 1

zirconium oxide, 29
